PORT FACILITIES IN UAE

SL NO.	PORT NAME	DESCRIPTION
1	PORT KHALIFA	<ul style="list-style-type: none"> • It is one of the largest deepwater harbours in the world. Located near the Taweelah offshore port, it is currently under construction and aims to be completed by 2030. • It is part of the Khalifa Industrial Zone Abu Dhabi (KIZAD) that serves the Emirates of Dubai and Abu Dhabi and stretches out to sea on a reclaimed island. The Industrial Zone covers over 400 square kilometres and generates significant cargo and container traffic. • The port services container vessels through a 30-year contract with Abu Dhabi Terminals (ADT) that currently processes 1.5 million TEUs annually. The present capacities are 2.5 million TEUs and 8 million tons of cargo. • Port Khalifa is aimed at replacing cargo operations from Mina Zayed and has already begun handling container vessels diverted from Port Zayed. The proposed construction has been divided into 5 phases.
2	MINA ZAYED	<ul style="list-style-type: none"> • It is an important deep-water seaport of Abu Dhabi, operational since 1972. • It services a large portion of vessels plying on the Gulf Coast and lies on an area of 25 square kilometres. The old container terminals occupy nearly 10% of the total area and are built to store up to 15,000 TEUs. • Vessels inbound to Mina Zayed can refuel directly from the Abu Dhabi National Oil Company's (ADNOC) fuel bunkers that offer reduced rates. The port also has an engineering division on the call for vessel repairs and servicing.
3	MUSAFFAH PORT	<ul style="list-style-type: none"> • 2nd oldest port in Abu Dhabi after Mina Zayed. It is a deep-water harbour that runs along the 53-kilometre Musaffah Channel. This channel provides a navigable canal through which the port is directly linked to the Persian Gulf. • It has advanced facilities to handle the various cargo vessels inbound. It can handle general cargo, breakbulk, solid bulk, and ro-ro ships. There are also large commercial warehouses which can be leased for storage and distribution of goods by companies within the port. • Musaffah is one of the ports that received the first links, alongside Jebel Ali and Mina Khalifa. This will create connectivity to neighbouring Saudi Arabia and Oman, as well as to other ports for transshipment. It is also connected by road to the Abu Dhabi International Airport.
4	PORT JEBEL ALI	<ul style="list-style-type: none"> • It is a major port in Dubai, with over 15 million TEUs shipped in 2019. • Currently, Jebel Ali is the 9th busiest port in the world, the

		<p>busiest in the Middle East, and handles a significant portion of container traffic through the region. It has won numerous awards for its infrastructure and facilities.</p> <ul style="list-style-type: none"> • This port is a hub for both global and domestic companies. It includes a freight station (CFS) dealing with LCL container units. • The container terminals are divided into the T1, T2, and T3 zones, with a planned T4 zone on the way. T1 is the busiest terminal with 15 berths and a 9 million TEU capacity; T2 can hold 6.5 million TEUs with 8 berths; highly advanced T3 has 5 berths and can hold 3.8 million TEUs. • The port is well connected to the city, the Dubai International Airport, and the Airport Air Cargo Village. It deals with shipments to Asia, the Middle East, Northern Africa, and Europe. The cargo handling capacity currently stands at 22.4 million TEUs.
5	MINA RASHID	<ul style="list-style-type: none"> • Opened in 1972, this port is an important passenger and cargo port in Dubai and was the first commercial port in the Emirate. It handled container and cargo operations until they were shifted to Jebel Ali. • It boasts of a 1.5 million TEU capacity alongside state-of-the-art technology and new equipment. • It handles ro-ro, ro-pax, general passenger, and cruise vessels. There are also minor cargo operations at the port premises. Extensive real estate development is planned along the waterside to convert the port into a major tourism site.
6	MINA AL HAMRIYAH	<ul style="list-style-type: none"> • Located on mainland Dubai and shielded from the Persian Gulf by the Deira Islands, this port is an important trading and passenger harbour and lies close to the Port Rashid. • Despite being a small port, it handles a large portion of livestock, fish, frozen and fresh foods, and passenger traffic in the region. • The Port is currently managed by Dubai Ports World and handles trade with Asia, parts of Africa, and Europe. • The port is also close to the Al Hamriyah Civil Defense Station and the Department of Passport Control. It is well connected to the other Emirates by an extensive road and rail network. Moreover, Dubai International Airport is just a short distance from it.
7	PORT OF FUJAIRAH	<ul style="list-style-type: none"> • Largest port in the UAE on the Eastern Coast and is a major deep-water port in the region. • It is a multipurpose harbour, close to the Straits of Hormuz and has been operational since 1983. Oil terminals were

		<p>added in 2006 and 2010.</p> <ul style="list-style-type: none"> • The port is well connected to the surrounding Emirates and is part of the cross UAE expressway. It is connected to the Etihad Rail project that provides transport to Dubai, Sharjah, Ras Al Khaimah, Um Al Qwain, Abu Dhabi, and Al Ain. • The main services provided by this port include cargo, container, and oil shipments. • It is built to handle general cargo, project cargo, bulk cargo, wet bulk, fuel etc.
8	PORT OF RAS AL KHAIMAH	<ul style="list-style-type: none"> • As one of the northernmost ports in the UAE, this harbour is an important trading post in the region. Situated close to the Strait of Hormuz, vessels covering parts of Asia, Europe, and Africa are serviced here. • The Ras Al Khaimah Port actually includes several smaller ports, such as Mina Saqr and Mina Al Jazeera harbours, in addition to the main RAK harbour. • Has several Free Port Zones that provide operational spaces to several international companies, and also provides storage to various shipping lines. There are provisions to handle general cargo, liquid and bulk cargo, and reefers. • This port also has cruise and passenger terminals that cater to a large portion of the regional tourism. • The main shipment through Ras Al Khaimah (RAK) port is construction materials. Al Jazeera Port is located south of the main RAK facility and deals with repairs and ship servicing. It operates dockyards that have advanced equipment and machinery.
9	PORT OF KHOR AL FAKKAN	<ul style="list-style-type: none"> • Located on the Indian Ocean coast, it is an important cargo hub of the region. It lies close to the Straits of Hormuz and is within 3 hours from Dubai and Abu Dhabi. • It is one of the largest transshipment harbours around the world and caters to ships crossing through the East-West route via the Indian Ocean. • It is primarily a container and cargo handling port that services surrounding regions of Sharjah. • Has 6 quays, spanning a total over 2 kilometres. • The container terminal of Khor Fakkan, known as KCT, has storage capacities for 45,000 TEUs.
10	PORT KHALID/ MINA KHALID	<ul style="list-style-type: none"> • Situated on an important trade route to the Indian Ocean, it is one of the main ports of Sharjah. • Has extensive storage facilities for all types of goods including cold stores, reefer storage zones, bulk cargo holding areas etc.

		<ul style="list-style-type: none"> • Is built to handle cargo including general, dry, liquid, bulk, and containers. • It currently operates 33 multi-purpose berths including 21 general cargo berths. The rest handle miscellaneous cargo. • Also has an Inland Container Depot (known as ICD) that is connected to other parts of Sharjah. It is also connected by road to other Emirates in the UAE
