A BRIEF ABOUT UK

The United Kingdom of Great Britain and Northern Ireland, commonly known as the United Kingdom (UK) or Britain, is a country in North-western Europe, off the north-western coast of the continental mainland. It comprises England, Scotland, Wales, and Northern Ireland. It includes the island of Great Britain, the north-eastern part of the island of Ireland, and most of the smaller islands within the British Isles. Northern Ireland shares a land border with the Republic of Ireland; otherwise, the United Kingdom is surrounded by the Atlantic Ocean, the North Sea, the English Channel, the Celtic Sea and the Irish Sea. The total area of the United Kingdom is 93,628 square miles (242,495 km²), with an estimated 2023 population of over 68 million people. The United Kingdom has evolved from a series of annexations, unions and separations of constituent countries over several hundred years. The Treaty of Union between the Kingdom of England (which also included Wales) and the Kingdom of Scotland in 1707 resulted in their unification to become the Kingdom of Great Britain. Its union in 1801 with the Kingdom of Ireland created the United Kingdom of Great Britain and Ireland. Most of Ireland seceded from the UK in 1922,

leaving the present United Kingdom of Great Britain and Northern Ireland, which formally adopted its name in 1927. The nearby Isle of Man, Guernsey and Jersey are not part of the UK, being Crown Dependencies, but the British government is responsible for their defence and international representation. The UK became the first industrialised country and was the world's foremost power for the majority of the 19th and early 20th centuries, particularly during the "Pax Britannica" between 1815 and 1914. The British Empire, at its height in the 1920s, encompassed almost a quarter of the world's landmass and population, and was the largest empire in history; however, its involvement in the First World War and the Second World War, the cumulative crisis and the loss of prestige led to the decolonization of most of the British colonies and the eventual end of the Empire. A part of the core Anglophonic world, British influence can be observed in the language, culture, legal and political systems of many of its former colonies. The United Kingdom is a constitutional monarchy and parliamentary democracy. The capital and largest city of the United Kingdom (as well as the capital of England) is London, a megacity which, alongside New York City, is one of the world's two leading financial centres. The cities of Edinburgh, Cardiff, and Belfast are respectively the national capitals of Scotland, Wales, and Northern Ireland. Other major cities include Birmingham, Manchester, Glasgow, and Leeds. The UK consists of three distinct legal jurisdictions: England and Wales, Scotland, and Northern Ireland. This is due to these areas retaining their existing legal systems even after joining the UK. Since 1998, Scotland, Wales, and Northern Ireland also have their own devolved governments and legislatures, each with varying powers. The UK has the world's sixth-largest economy by nominal gross domestic product (GDP), and the tenth-largest by purchasing power parity. It is a recognised nuclear state and is ranked fourth globally in military expenditure. The UK has been a permanent member of the UN Security Council since its first session in 1946. It is a member of the Commonwealth of Nations, the Council of Europe, the G7, the OECD, NATO, the Five Eyes, AUKUS and the CPTPP.

GEOGRAPHY OF UK

The total area of the United Kingdom is approximately 244,820 square kilometres (94,530 sq mi). The country occupies the major part of the British Isles archipelago and includes the island of Great Britain, the north-eastern one-sixth of the island of Ireland and some smaller surrounding islands. It lies between the North Atlantic Ocean and the North Sea with the southeast coast coming within 22 miles (35 km) of the coast of northern France, from which it is separated by the English Channel.

The Royal Greenwich Observatory in London was chosen as the defining point of the Prime Meridian^[138] at the International Meridian Conference in 1884.

The United Kingdom lies between latitudes 49° and 61° N, and longitudes 9° W and 2° E. Northern Ireland shares a 224-mile (360 km) land boundary with the Republic of Ireland. The coastline of Great Britain is 11,073 miles (17,820 km) long. It is connected to continental Europe by the Channel Tunnel, which at 31 miles (50 km) (24 miles (38 km) underwater) is the longest underwater tunnel in the world.

The UK contains four terrestrial Eco regions: Celtic broadleaf forests, English Lowlands beech forests, North Atlantic moist mixed forests, and Caledon conifer forests. The area of woodland in the UK in 2023 is estimated to be 3.25 million hectares, this represents 13% of the total land area in the UK.

POLITICAL SCENARIO OF UK

The politics of the United Kingdom functions within a constitutional monarchy where executive power is delegated by legislation and social conventions to a unitary parliamentary democracy. From this a hereditary monarch, currently Charles III, serves as head of state while the Prime Minister of the United Kingdom, currently Rishi Sunak, serves as the elected head of government. The United Kingdom's parliamentary system sees executive power exercised by the British government, appointed on behalf of the monarch. This executive branch overlaps and is formed by members of the Parliament of the United Kingdom where legislative power is vested in the two parliamentary chambers of the House of Commons and the House of Lords. Asymmetrical powers are also granted to the devolved governments of Scotland, Wales and Northern Ireland within the Scottish Parliament, the Welsh Parliament, and the Northern Ireland Assembly. The British political system is a two party system. Since the 1920s, the two dominant parties have been the Conservative Party and the Labour Party. Before the Labour Party rose in British politics, the Liberal Party was the other major political party, along with the

Conservatives. While coalition and minority governments have been an occasional feature of parliamentary politics, the first-past-the-post electoral system used for general elections tends to maintain the dominance of these two parties, though each has in the past century relied upon a third party, such as the Liberal Democrats, to deliver a working majority in Parliament. A Conservative–Liberal Democrat coalition government held office from 2010 until 2015, the first coalition since 1945. The coalition ended following parliamentary elections on 7 May 2015, in which the Conservative Party won an outright majority of seats, 330 of the 650 seats in the House of Commons, while their coalition partners lost all but eight seats. With the partition of Ireland, Northern Ireland received home rule in 1920, though civil unrest meant direct rule was restored in 1972. Support for nationalist parties in Scotland and Wales led to proposals for devolution in the 1970s, though only in the 1990s did devolution happen. Today, Scotland, Wales and Northern Ireland each possess a legislature and executive, with devolution in Northern Ireland being conditional on participation in certain all-Ireland institutions. The British government remains responsible for non-devolved matters and, in the case of Northern Ireland, co-operates with the government of the Republic of Ireland. Devolution of executive and legislative powers may have contributed to increased support for independence in the constituent parts of the United Kingdom.^[4] The principal Scottish pro-independence party, the Scottish National Party, became a minority government in 2007 and then went on to win an overall majority of MSPs at the 2011 Scottish parliament elections and forms the current Scottish Government administration. In a 2014 referendum on independence 44.7% of voters voted for independence versus 55.3% against.^[5] In Northern Ireland, Irish nationalist parties such as Sinn Féin advocate Irish reunification. In Wales, Welsh nationalist parties such as Plaid Cymru support Independence. The constitution of the United Kingdom is uncodified, being made up of constitutional conventions, statutes and other elements. This system of government, known as the Westminster system, has been adopted by other countries, especially those that were formerly parts of the British Empire. The United Kingdom is also responsible for several dependencies, which fall into two categories: the Crown Dependencies, in the immediate vicinity of the UK, are strictly-speaking subject to the Crown (i.e., the Monarch) but not part of the sovereign territory of the United Kingdom (though *de facto* British territory), and British Overseas Territories, as British colonies were re-designated in 1983, which are part of the sovereign territory of the United Kingdom, in most of which aspects of internal governance have been delegated to local governments, with each territory having its own first minister, though the title used may differ, such as in the case of the Chief Minister of Gibraltar, though they remain subject to the Parliament of the United Kingdom (when *United Kingdom* is used to refer only to that part of the British Realm, or sovereign British territory, which is governed directly by the British Government, and not via local subsidiary governments, *United Kingdom* logically refers to a local government area, though the national government performs the role of local government within that area).

Prime/First Ministers, and deputies, since 1999

ECONOMY OF UK

The **economy of the United Kingdom** is a highly developed social market economy. It is the sixth-largest national economy in the world measured by nominal gross domestic product (GDP), tenth-largest by purchasing power parity (PPP), and twenty second-highest by nominal GDP per capita, constituting 3.1% of nominal world GDP. By PPP (purchasing power parity) terms, the UK constitutes 2.3% of world GDP. The United Kingdom has one of the most globalised economies, and comprises England, Scotland, Wales and Northern Ireland. In 2020, the United Kingdom was the fifth largest exporter in the world and the fifth-largest importer. It also had the third-largest inward foreign direct investment, and the fifth-largest outward foreign direct investment. In 2020, the United Kingdom's trade with the European Union accounted for 49% of the country's exports and 52% of its imports. The service sector dominates, contributing 82% of GDP; the financial services industry is particularly important, and London is the second-largest financial centre in the world. Edinburgh was ranked 17th in the world and 6th in Europe for its financial services industry in 2021. The United Kingdom's technology sector is valued at US\$1 trillion, third behind the United States and China. The aerospace industry in the United Kingdom is the second-largest national aerospace industry. Its pharmaceutical industry, the tenth-largest in the world, plays an important role in the economy. Of the world's 500 largest companies, 18 are headquartered in the UK. The economy is boosted by North Sea oil and gas production; its reserves were estimated at 2.8 billion barrels in 2016, although it has been a net importer of oil since 2005. There are significant regional variations in prosperity, with South East England and North East Scotland being the richest areas per capita. The size of London's economy makes it the wealthiest city by GDP per capita in Europe. In the 18th century, Britain was the first nation to industrialise. During the 19th century, through its expansive colonial empire and technological superiority, Britain had a preeminent role in the global economy,^[55] accounting for 9.1% of the world's GDP in 1870. The Second Industrial Revolution was also taking place rapidly in the United States and the German Empire; this presented an increasing economic challenge for the UK, leading into the 20th century. The cost of fighting both the First and Second World Wars further weakened the UK's relative position. Despite a relative decline in its global dominance, in the 21st century the UK retains the ability to project significant power and influence around the world. Government involvement is primarily exercised by His Majesty's Treasury, headed by the Chancellor of the Exchequer, and the Department for Business and Trade. Since 1979, management of the economy has followed a broadly laissez-faire approach. The Bank of England is the UK's central bank, and since 1997 its Monetary Policy Committee has been responsible for setting interest rates, quantitative easing, and forward guidance.

GOVT. TRADE AGENCIES ESTABLISHED IN UK

Department for International Trade

The Department for International Trade was a department of His Majesty's Government responsible for striking and extending trade agreements between the United Kingdom and foreign countries, as well as for encouraging foreign investment and export trade. The department existed between 2016 and 2023. Wikipedia

Founder: Theresa May

Founded: 14 July 2016

Department executive: Permanent Secretary; Second Permanent Secretary and Chief Trade Negotiation Adviser

Headquarters: Old Admiralty Building, Admiralty Place, Whitehall, LONDON, SW1A 2DY

Superseding agency: Department of Business and Trade

UK Trade & Investment

UK Trade & Investment was a UK Government department working with businesses based in the United Kingdom to assist their success in international markets, and with overseas investors looking to the UK as an investment destination. It was replaced in July 2016 by the Department for International Trade. [Wikipedia](#)

Jurisdiction: [United Kingdom](#)

Founded: October 2003

Headquarters: 1 Victoria Street, [London](#), [SW1H 0ET](#)

Preceding Non-ministerial government department: [British Trade International](#)

Department for Business and Trade

The Department for Business and Trade is a department of His Majesty's Government established on 7 February 2023, after a government reshuffle, the first by Prime Minister Rishi Sunak. [Wikipedia](#)

Jurisdiction: [United Kingdom](#)

Founded: 7 February 2023

Government: [Government of the United Kingdom](#)

UK Export Finance

UK Export Finance is the operating name of the Export Credits Guarantee Department which is the United Kingdom's export credit agency and a ministerial department of His Majesty's Government. It has been awarded the best global export credit agency in 2019. [Wikipedia](#)

Jurisdiction: [United Kingdom](#)

Founded: 1919

Child Department: Export Guarantees Advisory Council

Department executives: Tim Reid, Chief Executive; Cameron Fox, Chief Finance and Operating Officer

Headquarters: 1 Horse Guards Road; Westminster, London

Foreign, Commonwealth and Development Office

The Foreign, Commonwealth & Development Office is a department of the Government of the United Kingdom. Equivalent to other countries' ministries of foreign affairs, it was created on 2 September 2020 through the merger of the Foreign & Commonwealth Office and the Department for International Development. Wikipedia

Subsidiaries: Information Research Department, British Information Services, UKVisas

Jurisdiction: United Kingdom

Officeholder: James Cleverly (Secretary of State)

Founded: 1782

Annual budget: £1.1bn (current) & £0.1bn (capital) in 2015–16
